Dear Chancellors Brogan and Holcombe:

We are writing to you in our capacity as co-chairs of the Task Force on the Future of Academic Libraries in Florida. We are submitting, for your information, the attached working draft report of our efforts to date. The majority of this report addresses the first part of our planned final report, the environmental scan. More information will be added in the early months of 2011, as all the responses from the various work groups are received. Although incomplete, the environmental scan, future trends, as well as the vision and mission statements, provide a substantial basis for the completion of our report and a strategic plan for Florida's academic libraries.

Sincerely,
